

CITY OF NAPERVILLE

Transportation, Engineering, & Development (T.E.D.) Business Group REQUIREMENTS FOR A BUSINESS OCCUPANCY PERMIT

APPLICATION REQUIREMENTS

The Transportation, Engineering and Development (TED) Business Group has developed a fast track process for Business Occupancy Permits and Simple Tenant Build Outs that qualify. This process has been designed to expedite your application for a permit. To achieve this goal, please follow the process steps outlined in this application packet.

Step 1: Attend a Tenant Build Out Meeting

Where: Municipal Center, 400 S. Eagle Street

When: Every Tuesday

Time: 8:30 a.m.

Who: A Planner, a Plans Examiner, a Project Assistant, as well as representatives from the Electric and Fire Departments.

Step 2: Obtain the Proper Paperwork

You will be given the proper application for a permit, including a checklist of requirements and exceptions.

Step 3: Discuss your Project with City Staff

You will meet with representatives from the City's Planning, Development Services, Electric and Fire Departments. These departments will review your paperwork to determine if any additional information is required prior to submittal. At this time you will have the opportunity to ask questions.

Step 4: Submit your Application

When you submit your application, a Project Assistant will review your application for completeness and review the appropriate associated paperwork.

The fees for an Occupancy Permit are **\$77.00 for a Business** and **\$138.00 for a Restaurant**.

Step 5: Receive Permit

Step 6: Schedule your Inspections

The following departments require approved inspections before you open for business.
Please schedule your inspections with the required departments in the following order.

1. **Naperville Fire Department** (630/420-6100 option 1) for fire alarm or fire suppression inspections.
2. **DuPage County Health Department** (630/682-7400) or **Will County Health Department** (815/727-8480) **if your project is**, for example,
 - A restaurant or other business that involves food preparation.
 - A daycare center for children or senior citizens.
 - A tanning salon.
3. **Naperville Inspection Dispatch** (630/420-6100 option 1) for the Final Occupancy Inspection.

Please schedule your inspections a minimum of 72 hours in advance by calling 630/420-6100 (option 1) Monday through Friday from 8:00 a.m. to 4:00 p.m. (closed 1-2 pm daily) A minimum of 72 hour notice is requested. If you find you must cancel an inspection please notify inspections in advance to insure that you will not incur additional fees. You may reschedule the re-inspection at the time of cancellation.

CITY OF NAPERVILLE
LETTER OF INTENT
FOR OCCUPANCY OF EXISTING TENANT SPACE,
BUSINESS OCCUPANCY, OR TENANT BUILD-OUT

The City of Naperville has adopted a Commercial Building Maintenance Code to insure the safety, aesthetics, and structural integrity of its public buildings. Accordingly, we ask that anyone planning to occupy a tenant space in Naperville fill out this Letter of Intent prior to submitting for either a business occupancy permit or a tenant build-out permit. City representatives will review the letter, and the applicant will be informed at the pre-application meeting if an inspection is necessary. A time and date for this on-site inspection will be set at that time. Thank you for your cooperation.

**ADDENDUM TO TENANT BUILD-OUTPERMIT APPLICATION CHECKLIST
(Must be submitted with Commercial New Construction Permit Application.)**

The Department of Public Utilities – Electric (630/420-6710) requires the following items along with the completed Electric Worksheet and the completed application:

If electric service entrance equipment is altered:

- _____ Electrical one-line diagram;
- _____ Meter location including distance from service transformer must be shown on the plans;
- _____ Catalog cut of new meter socket and current and/or potential transformer cabinet must be shown on the plans;
- _____ A diagram of the new altered service entrance point of attachment is required on **OVERHEAD SERVICE ONLY.**

The City of Naperville has adopted an Infrastructure Availability Charge (Ordinance 87-44, Section 8-1C-8-5 of the City Code) for all construction occurring in the City. It is assessed as a per kilowatt charge for additional electric demand as indicated in construction plans, and/or if meter readings indicate an increase over the total previous estimate(s). For information contact the Department of Public Utilities at 630/420-6185.

CITY OF NAPERVILLE IAC CODE

8-1C-8: ELECTRIC SYSTEM CONNECTION PERMIT AND INFRASTRUCTURE AVAILABILITY CHARGE:

5. Infrastructure Availability Charge For Service Connections: The charge for each permanent electric service connection or any addition thereto shall be calculated by determining the applicant’s proportional share of the cost to construct the transmission, substation and distribution facilities (hereinafter “backbone facilities”) required to provide available electric service for the proposed development in accordance with the table depicted in Exhibit 1. The table in Exhibit 1 shall be revised and adjusted annually beginning on January 1, 1997, and on January 1 of each successive year, on the basis of the handy Whitman Index of Public Utility Construction Costs, as published in July of each previous year. Three (3) copies of Exhibit 1 shall be kept on file and available for inspection in the office of the City Clerk, and Exhibit 1 is incorporated herein by reference as though fully set forth.

5.2. Nonresidential Infrastructure Availability Charge:

5.2.1. Each nonresidential infrastructure availability charge shall be individually determined on the basis engineering plans and drawing submitted by the applicant.

5.2.2. The infrastructure availability charge shall be calculated by multiplying the estimated maximum noncoincident demand for the customer in kilowatts (kW), as determined from the architectural plans and drawings submitted by the applicant, at a rate per kW established annually by the City of Naperville ordinance and representative of the investment in the system’s backbone facilities expressed in dollars per kilowatt. The calculation shall not be adjusted by the Department after its initial determination unless the applicant submits revised architectural plans before the scheduling of any construction.

5.3. Charges for Pre-Existing Service: Where there is construction of a new building or the alteration of or addition to an existing building located upon a lot, block, tract, or parcel, or an increase in the service to a nonresidential customer, no building permit or electric service connection permit shall be issued without payment of such additional infrastructure availability charges calculated according to Section 8-1C-8.5 of the Chapter.

CITY OF NAPERVILLE
Transportation, Engineering & Development (T.E.D.) Business Group

CONSTRUCTION SITE SAFETY DIRECTIVE
Effective Date: January 3, 2000
Attention: Builders, Contractors, Architects, & Developers

The City of Naperville is concerned about the safety of construction workers, city inspectors, and the general public. The Police and Fire Department frequently respond to calls at construction sites to aid persons injured as the result of an accident. It is everyone's responsibility to insure that construction sites are safe for everyone involved in the construction phase of a project or development. Therefore, in an effort to promote safety at construction sites, effective January 3, 2000, the following requirements must be met in order for the City to conduct an inspection:

1. The building address (not lot number) must be displayed, including suite numbers, if applicable. This includes a sign in front of the structure while foundation work is in progress and numbers on the front of the structure. Numbers must be at least 5 1-2 inches in height and visible from the street.
2. A gravel access path, at least 3 feet wide and clear of debris, water and snow, is required from the street to the structure.
3. Manufactured ladders (minimum type 1) rated for 250 pounds and secured in place must be present on the site. Site-built ladders, constructed in accordance with OSHA/ANSI standards,* are acceptable.
4. Cleated ramps shall be constructed to OSHA/ANSI standards,* elevated to a **maximum** of 3 feet, and secured in place.
5. Railings (36 inches in height) constructed at OSHA/ANSI standards* are required on elevated platforms, stair openings, and lofts.
6. Temporary stairs, constructed in accordance with OSHA/ANSI standards*, must be secured at the top and bottom and have intermediate support rails every 6 feet.
7. The inside of structures must be free of debris, standing water, ice, mud and human waste.
8. Construction debris must be in a dumpster or other four-sided container with a floor.
9. Access to excavations must comply with OSHA/ANSI standards.

***Copies of OSHA and ANSI standards are available for review in T.E.D (Transportation, Engineering & Development Business Group). OSHA can be contacted at 630-896-8700, and ANSI can be contacted at 212-642-4900.**

The above list details the minimum on-site safety requirements that went into effect on January 3, 2000. Upon arrival at a job site, building inspectors will confirm that the minimum requirements have been met before they will conduct an inspection. If all requirements have not been met, the inspector will issue a STOP WORK ORDER that will remain in effect until the construction site is brought into full compliance with the City's safety requirements.

FOOD & BEVERAGE TAX

Introduction

The City of Naperville has implemented a one percent (1%) tax on food and beverage (alcoholic and non-alcoholic) which can be consumed on the premises where purchased. All affected retailers must begin collecting this tax beginning July 1, 2004.

Downtown Tax Rate

Illinois Law authorizes home rule municipalities to impose a tax in an area of up to one square mile; on the gross receipts of the sale of alcoholic beverages, soft drinks and food prepared for immediate consumption; for the purpose of paying for public parking facilities [65 ILCS 5/811-6c].

On October 7, 2008 the City implemented such a defined area Food and Beverage Tax at a rate of 1.5%, per Ordinance 08-187. The tax is in addition to the existing 1% Food and Beverage tax applicable throughout the City since 2004. **This additional tax applies only to businesses located in downtown Naperville.** Please see Exhibit A – Downtown Map for Imposition of Food & Beverage Tax to see the downtown boundaries. According to the City Ordinance, businesses located in the downtown area are required to begin collecting 2.50% Food and Beverage Tax effective November 1, 2008.

Registration

All retailers are required to submit a completed Food & Beverage Tax Registration Form before conducting business. The seller must notify the City of Naperville of the last sale date. The new owner is required to re-register the location. Business owners must register each retail location separately.

Collection

The food and beverage tax is due monthly. Payment of the tax must be made to the City of Naperville no later than the 20th of each month following the month in which the tax was collected. For example, taxes collected during the month of July are due no later than August 20. Along with the tax payment, business owners must submit a completed Food & Beverage Tax Return Form and a copy of the State of Illinois forms ST-1 and ST-2, if applicable.

Businesses may retain 2% of the total tax due to cover administrative expenses. The 2% is only applicable if payment is received on or before the 20th of subsequent month. Filing after the due date will result in a late payment penalty equal to 5% of the unpaid tax.

Contact Information

A copy of the ordinance and all city tax forms are available for downloading on the City of Naperville's Web site. Completed forms and payments should be returned to:

City of Naperville
400 S. Eagle Street
Naperville, IL 60540
Attn: Finance Dept., Food & Beverage Tax

For additional information, contact the City of Naperville Finance Department at (630) 420-4115.
